Welcome to Deer Range, we are honored by your friendship and interest in our program. We've been breeding Red Angus since 1990 and the years have sure flown by. Over these 34 years we have used AI sires and visited many herds to find the most sound and functional cattle. We are certainly proud of the herd we have built, just as many of you are.

Our bull program continues to focus on raising 2 year old bulls that get out and travel the breeding field to sire the best calves possible. We focus on structural soundness first. We simply can't afford to raise a bull for two years and then cull for poor feet. Built on a strong foundation, we select for udders, eye appeal, length of body, and performance that profits the commercial rancher.

This year, we decided to offer a handful of yearling bulls that were born earlier than most of our calves. These include a couple from the WRAZ dispersal and some ET calves.

All the bulls are brought along on a Total mixed ration of hay, silage, and corn. The 2year olds are backgrounded the first winter and spend the summer on tame grass until October. We try to get them in nice condition, but they aren't overcooked.

As advertised we are hosting a video sale at the ranch for the first time. Come and visit anytime between now and March 11 to tour the herd. You will love the sister and mothers to these bulls.

We look forward to hosting you March 11.

All the best,

*Travis*

Jeff, Lenice, Isaiah and Taletta

Travis, Kirsten, Erika and Jesse

Gord On Gunsmoke

*Please join us for lunch in the shop before the sale.*

**Then allow time to view the bulls outside before the video sale back in the shop.**
